CMMC Assessment Readiness — Implementation Program
An end-to-end path to audit-ready compliance aligned to CMMC 2.0 & NIST SP 800-171

For Defense Industrial Base (DIB) contractors

Program Highlights

• Readiness & Gap Analysis mapped control-by-control to NIST SP 800-171 and CMMC 2.0

• Assessor-ready documentation: SSP, policies, standards, procedures, and POA&Ms;

• Technical controls enablement: GCC High, Identity & Access, Intune, Defender, Purview, audit logging, hardening

• Evidence & artifacts: screenshots, exports, traceability matrix and sampling prep

• Mock assessments: dry-run interviews, scoring validation, corrective actions & executive readout

How We Get You Audit-Ready

01 · Discovery
Scope, inventory, data flows, contracts, and environments.

03 · Implement
Policy + technical controls, evidence capture, training & enablement.

02 · Assess
Control effectiveness, risk ranking, gap matrix, and roadmap.

04 · Validate
Mock assessment, fixes, final artifacts, and assessor handoff.

Expected Outcomes

• Assessment-ready posture with evidence mapped to assessor expectations

• Reduced risk and clearer ownership across policy, technology, and governance

• Accelerated timelines via remediation sprints with clear acceptance criteria

• Executive-level visibility: scorecard and decision-ready reporting

Proven Results

• ATI Inc. — Achieved a perfect CMMC assessment score with iDatapro's readiness program.

• DGI Inc. — Realized a flawless assessment outcome leveraging our roadmap and mock assessments.

• Led by Certified CMMC Professionals (CCP).
